Chainarong **Chiewngan**

Data Analyst

Profile

I'm a professional engineer. Hands-on project Machine/ Programing for control machine. And I made projcet improvment process for cost saving. Now I'm looking next opportunity on duty Data Analyst for better decision.

Work Experience

Data Analyst – June 2022 to Current

Bootcamp Data Analyst

- Transform and Load all data collected for reporting into a Data studio platform
- Organizing data in to usable formats then building predictive models and Processing, cleansing & verifying of data
- Data collection, transformation and aggregation from external and internal sources
- Analyze massive data using statistical techniques and provide results which are actionable for users
- Provide insights and recommendations on the reports
- Assessing the effectiveness and accuracy of data sources and data gathering techniques.
- Create visualizations of data be responsible for automatically generated Google Data Studio reports and their quality
- Organizing and presenting data in a clear, concise manner

Engineer – July 2014 to June 2022

SCG Cement Building materiel

- Plan and coordinate production engineering processes on daily basis to produce high quality products.
- Develop operational strategies to achieve production and financial objectives.
- Identify unsafe operations and practices and report the same to Manager immediately.
- Project planning and management – defining project tasks and resource requirement, scheduling timelines and deadlines completing risk assessment.
- Stay current with product specifications, engineering technology and processes. Develop best practices to improve productivity, capacity, quality and reliability. The final investigate problems, analyze root causes and derive resolutions.

Education

Bachelor of Engineer : Srinakarinwirot University – 2013

Info

Birth Date: 15 Dec 1991

Tel: 087-515-2219

Email:C.Chainchi@gmail.com

Skill

- Google - sheet / Excel / Pivot Table
- Database SQLite
- R Programming
- Data Transformation
- Dashboard
- Python Programing OOP/Pandas Data frame
- Statistics
- Machine Learning
- Web Scraping
- Google Data Studio
- Problem Solving
- Communication skill
- Collaboration / Team work
